**User/Installer Responsibilities**

It is important to understand that the existence of this Document alone does not automatically constitute authority to install the part/component/assembly.

Where the user/installer work in accordance with the national regulations of Airworthiness Authority different than the Airworthiness Authority of the country specified in block 1 it is essential that the user/installer ensures that his/her Airworthiness Authority accepts parts/components/assemblies from the Airworthiness Authority of the country specified in block 1.

Statements in block 14 and 19 do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

The above aircraft parts have been obtained from or maintained by a CAA AN17 source as per CAA AIRWORTHINESS NOTICE 17 issue 6. The end user is responsible for satisfying themselves that these items comply with the requirements of JAR145. We certify that the whole of the material listed above is in accordance with, and complies with your purchase order.

We hold incoming paperwork as evidence of traceability and if applicable, the appropriate Authorised Release Documentation is attached and or will be made available to the end user upon request from that end user. We make no claims as to airworthiness of these parts nor do we offer any warranties unless otherwise noted.

All claims for damages, shortages, etc. Must be made against carriers and insurance companies. Lead Aviation must be notified of shortages and claims within 7 days. NO RETURNS EXCEPT WARRANTIES ENTERTAINED AFTER 30 DAYS FOR ANY REASON. Please inspect the good upon delivery. Failure to notify us within 7 days voids any and future claims.
