JME TECHNOLOGIES

VPM VIDEO BORESCOPE WITH HD MEASUREMENT

PROVIDING BORESCOPE INSPECTION SOLUTIONS FOR OVER 40 YEARS.

Highest resolution with HD capture, 3D multi mode measurement with HDMI output.

JME Technologies' newest addition to its impressive line of video borescopes is the VPM. The VPM is available in a 4mm and 6mm diameter scope with lengths up to 3.5m, side view also available. 4 way articulation is controlled via the joystick. View live on the 6.5" HD touch screen or save images to the onboard SD card or internal memory. High definition image with 3D phase measurement technology provide precise data, live or on saved images. The multi spot ranging enables faster and more accurate measurement results. Distance, point to line depth, linear, and scalar measurement modes to assist you confidently measuring flaws in critical components.

Key Features:

- HD imaging 4 & 6mm diameter
- 3D phase multi mode measurement
- 6.5" touchscreen monitor
- Adjustable LED lighting
- Real time and post inspection measurement capable.
- Durable and portable
